### ENGLISH

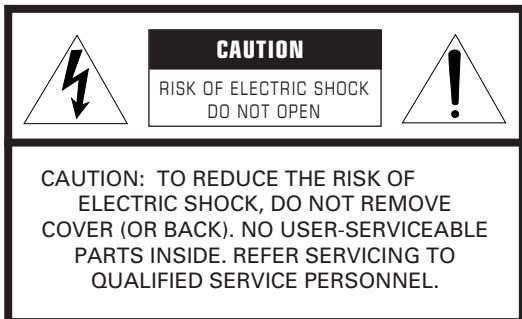

Thank you for selecting this YAMAHA RF demodulator.

This unit converts DOLBY DIGITAL AC-3 RF signal sent from a laserdisc player (with DOLBY DIGITAL AC-3 RF output) etc. to both optical and coaxial digital signals.

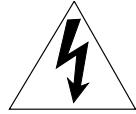

Digital signals converted in this unit are output from both the OPTICAL and COAXIAL digital signal output terminals respectively.

This unit is useful for connecting a laserdisc player etc. whose DOLBY DIGITAL AC-3 output is an RF output only to a Dolby Digital Decoder or an amplifier equipped with a Dolby Digital Decoder which does not have a DOLBY DIGITAL AC-3 RF signal input terminal.
